Biography

Dr. Jeffrey Hoos is a world-renowned practitioner and author of numerous articles. He has developed many innovative and exciting dental techniques including the patented H & H cordless impression method. Dr. Hoos graduated from Tufts University School of Dental Medicine with a DMD degree after receiving his MS degree in Biology from the University of Bridgeport and his BA degree in Zoology from Drew University. Dr. Hoos had been involved with implant dentistry for the last 25 years and teaches implant dentistry courses. Dentists from around the world regularly visit his practice to learn how to implement his methods. He lectures extensively on practice management as well as implant and cosmetic dentistry. He recently celebrated his 41st anniversary in private group practice in Stratford, Connecticut and is consistently in the top 1% of the dental practices in the United States.

Course Description

When a dentist completely understands the steps to create durable, long-lasting, composites: dentinal bonding/sealing, stress-free build-ups, and proper occlusion, they have the building blocks for doing reconstruction cases. Understanding key basic and advanced adhesion techniques (immediate dentin sealing, resin coating, stress-reduced layering) enables a clinician to create strong durable bonds that protect the pulp & last. This course will discuss, review, and illustrate how to do these simple advanced adhesion techniques and use them for completing reconstruction cases.

Learning Objectives

At the end of this course, participants will be able to:

- Understand when to use immediate dentin sealing, resin coating, and bonding techniques
- Identify stress-free composite restorations.
- Understand occlusal principles in a simple way.
- Restore mouths with a functional understanding of how to do so.

The Seventh District Dental Society is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at CCEPRADA.org.
